

July Kyuyo SSH Activity Record

·OIST Presentation Program (July 5, 2021)

Second Session: A lecture on basic presentation software and how to make presentations was given by an OIST researcher in English via online.

· SS Science and Mathematics Exploration II Theme Review Meeting (Math) conducted online(July 8, 2021)

· SSH Committee (July 9, 2021)

Creating lessons for inquiry-based learning

·International Explorations I theme review meeting and opinion exchange meeting (July 13, 2021)

Students in the 2nd year International English course had a discussion session with university professors and teachers in charge of learning activities on the theme of "International Studies I". The students set their own agenda based on the SDGs and proposed ways to approach various problems in society.

· Science English Lab (July 26, 2021)

Four ALTs and 20 students from our school conducted scientific experiments and workshops on topics such as making plastic out of milk, making pocket warmers, and instant cooling, all in English.

· Junior High School 3rd Grade "Integrated Study Time" Theme Study Meeting (July 28, 2021)

The third graders of the junior high school have been working on research projects in small groups in their "Integrated Study Time". We held a "theme review meeting" to discuss each research group's research policy, research method and research plan. The students made presentations on their exploration themes. After each team's presentation, they reviewed the questions they received during the Q&A session.
