The 3rd Science English Debate Match semi-finals and final (2021 February 2.24)

February 24: The 3rd Science English Debate Match semi-finals and final were held with four science and math classes and four representatives from each class. The topics were the semi-final "Climate Change Does Not Exist" and the final

"Parents should be allowed to choose a baby's gender". Both the semifinals and finals were heated debates, and the students in the audience listened to the debates of the representative teams on stage from the perspective of the judges.
