Kyuyo SSH Activity Record 2022 (August)

2022 SSH student research presentation in Kobe (August 3.Wed – 4.Thu, 2022)

At the Super Science High School SSH student research presentation held at the Kobe International Exhibition, a team from our school, "What is the slimy creature that came out of the Ogasawara cockroach?!" participated. Many students from other schools came to listen to our poster presentations, and the event was a great success. It was worth it, and we were able to get the student vote award.

Meeting for building STEAM education consortium ① (August 9, Tue, 2022)

We exchanged opinions with partner companies about building a consortium. From this year, we plan to create examples of cooperation and connect them to the next year.

Meeting for building STEAM education consortium ② (August 19, Fri, 2022)

We exchanged opinions on building a consortium with partner companies. We plan to strengthen cooperation by connecting with the SDGs initiatives that companies are implementing.

6th SSH Committee meeting (Thursday, August 25, 2022)

We discussed the outline of Phase III. The key word is "glocal," which makes use of the regional characteristics of Okinawa and the strengths of Kyuyo High School.

SSH Exploratory Research I, SDGs Study Quest I (1st year students) staff meeting (June 1-30, 2022)

Utilizing each subject meeting and Teams, we discussed the perspective evaluation of SSH Exploratory Research I and SDGs Study Quest I (1st grade).
