

February 2022 Kyuyo SSH Activity Record

The 32nd Math Olympiad Final Round (Friday, 2.11.2022)

This year, due to the new coronavirus, the event was held at the school. Two regional winners were selected from our school.

Kyushu High School Student Science Research Competition, Okinawa (2022.2.12.Sat.)

Chemistry club presented their research in the research presentation and poster presentation sections. The Biology Club presented in the poster presentation division. The results were both excellent awards. The students did their best in their presentations, even though their activities were restricted due to the Corona Disaster.

SSH staff Meetin (Thursday, February 22, 2022)

All staff members were briefed on the achievements of KYUYO SSH this year and so far, and exchanged opinions on issues for the next year.

Okinawa Taiwan International Science Forum (Thursday, 2022.2.24)

The students presented their research in the field of science with Cheng Kung High School and each other's countries and cultures in English. In addition to the research presentations, we also had a cultural exchange, albeit for a short period of time.
