

## Kyuyo SSH Activity Record 2023 ( July )

### Staff Training (2023.7.28.Fri.)

The teacher training conducted on the 28th featured Mr. Hiroshi Suzuki from Suzukan Seminar as the instructor, with a focus on learning about inquiry-based learning and career guidance.

Drawing from Mr. Hiroshi Suzuki's past instructional experience, we learned methods to elicit students' initiative and received valuable advice on guiding inquiry-based activities. Furthermore, in the realm of career guidance, we learned about respecting each student's individuality and establishing a supportive framework for lessons that lead to students' future aspirations.

We believe that the outcomes of this training will elevate the quality of inquiry-based activities at Kuyo High School and contribute to continuous improvements in our teaching practices.
