

December 2021 Kyuyo SSH Activity Report

•SS Science and Mathematics Exploration II Presentation (2021.12.16.)

Second-year students of the Science and Mathematics course gave presentations using their research posters.

21 junior high school students (from Misato Junior High School) also observed the presentation

•International Exploration I Presentation (2021.12.23.)

The students gave a presentation on International Studies I. We also had an exchange of opinions with the research advisor. Students from the science and mathematics course also participated in the presentations and exchanged their research.

At the exchange of opinions, there were opinions that the students were able to explore more deeply than last year, but that the setting of the theme needed to be reconsidered.

•Visit to build a consortium of high schools and universities (2021.12.23-25.)

We visited Tohoku University of Art & Design as an inspection for the establishment of a consortium of high school and university cooperation.

At Tohoku University of Art & Design, the regional cooperation section of the university coordinates between the university and each high school.

•Math Festa at Osaka Prefectural Otemae High School(2021.12.25.)

We participated in the Math Festa at Osaka Prefectural Otemae High School.

•The 4th SSH committee meeting (2021.12.28.)
