

## November 2021 Koyo SSH Activity Report

### •International Inquiry II Research Presentation (2021.11.1.)

First-year students of the International English Department observed the research of third-year students and used the experience to consider their future research themes.

### •Glocal Project (Tokyo Tsukuba Training Alternative Project)

(2021.11.10~11.12)

As an alternative to the Tokyo-Tsukuba training program, we conducted a three-day training program in collaboration with many companies and organizations.

#### Day 1: Orientation, Generative Workshop

Why Science session (Science and Mathematics)

Project brush-up session (International English Department)

#### Day 2: Mission for Fun, Five senses fieldwork

Global and personal career design session

#### Day 3: Future Session, Reflection

### •SSH Science English Course (OIST Lectures and workshops) (2021.11.9.)

A researcher gave a lecture and an experimental workshop at Okinawa Institute

of Science and Technology Graduate University (OIST).

Participants : 10 students

Lecturer : Aleksandra Gavrilova, Margarita Dronova

Lecture theme : What are the indicators?

Introduction to crystallography

#### •SSH staff meeting (2021.11.22.)

The staff in charge of Science, Mathematics, and International Studies met to discuss the second semester's evaluation.

#### •Visit to advanced schools (2021.11.25~26.)

We visited Oita Maizuru High School (Oita Prefecture), Kumamoto Kita High School (Kumamoto Prefecture), and Udo Junior High School and Udo High School (Kumamoto Prefecture).

- Oita Maizuru Senior High School: the activities of STEAM education.
- Oita Maizuru High School: STEAM education
